

FAST FACTS ON Health Insurance for Immigrants

NY State of Health is an online marketplace for health plans. Everyone should come to the Marketplace to see what it can offer.

It does not matter where you were born. NY State of Health can help you.

Sign up for a health plan from OCTOBER 1, 2013 to MARCH 31, 2014. Coverage will begin as early as JANUARY 1, 2014.

Here are 4 important things you should know about NY State of Health

1 Facts you give us will not be shared

What you tell NY State of Health and its advisors is private. The facts you give us to enroll in a health plan will not be shared with anyone else. And they will not be used for any other purpose.

2 You will get help no matter how you or your family members came to this country

Even if you don't have immigration papers, or if members of your family came to this country in different ways, you only have to fill out ONE APPLICATION for everyone. And, no matter what your status, you may still be able to get emergency Medicaid and regular health coverage for your children (Child Health Plus).

3 You will get help in many languages

- The people who answer our phones speak many languages. If they don't speak yours, they will get you a translator.
- We have trained people in your community who speak your language. They will help you find what you need on our website. If you like, they can also come to where you live or work.

4 You will get help in many forms

You can find help online, on the phone or in person in your community. Our trained advisors will help you through every step of choosing and enrolling in a health plan.
